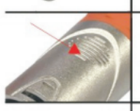
CONNECTOR STRUCTURE

LK new range of Professional quality connectors manufactured to reach the highest possible standards with the best-quality material



New unique attractive & fashional housing design is available in 2 different color platings.(black nickel plating/dull nickel plating)

Improved solder cup to keep solder away from the contact

Improved plastic chuck with high pull out force, make stripping easier and jam jacket safer

Inner thread of die-cast housing protect plastic ends well even under the dropping broken test.

Unique ingenious "cage" type female contact with 7 independent contact points that increase conductivity and reduce wear and stress on the male pin. Improved solder cup with barrier to keep solder away from the contact.

Unique locking rip

New color ring design is available in multiple colors,can be used for customized marking, branding and coding

A soft touch rear two pieces bushing moulding available in different color. not easy to break, extend the service life of the products

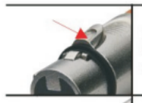
LK new range of Professional quality connectors manufactured to reach the highest possible standards with the best-quality material

New unique attractive & fashional housing design is available in 2 different color platings.(black nickel plating/dull nickel plating)

Millions insertion force twisted pin type strain relief

The female/male gap design on both plastic parts makes assembling easier and faster

Inner thread of die-cast housing protect plastic ends well even under the dropping broken test.



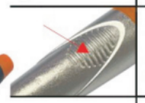
Plated latch improves security and provides easier and faster operation.

The additional ground spring on the female between chassis and cable connector

New color ring design is available in multiple colors,can be used for customized marking, branding and coding

A soft touch rear two pieces bushing moulding available in different color. not easy to break, extend the service life of the products

LK new range of Professional quality connectors manufactured to reach the highest possible standards with the best-quality material



New unique attractive & fashional housing design is available in 2 different color platings.(black nickel plating/dull nickel plating)

The female/male gap design makes assemble easier and faster

Strain relief cable clip inside with higher pull out force not right at the front the inside teeth cause a deep grip into the cable jacket and the longer size grabs jacket

Inner thread of die-cast housing protect plastic ends well even under the dropping broken test.

Insert the chassis with the Jack neck well protectd under the 90° testing

New color ring design is available in multiple colors,can be used for customized marking, branding and coding

A soft touch rear two pieces bushing moulding available in different color. not easy to break, extend the service life of the products
